- Woodworking
- Playing guitar
- Playing basketball

Why are you interested in serving on the HBA Board of Directors?

The HBA and many of its members have made a huge impact on the success of our business. I began operating our family business a young age and the monthly meetings allowed me to connect and work with some great business leaders. Many of these leaders have taken time to give me great advice, and encouraged me to be a part the training opportunities the HBA offers. Their efforts have had a positive impact on my life, and the success our family business. So, it is with a grateful attitude that I look forward to continue serving and giving back to the HBA.
